Web development	Python
JavaScript	Database management

## AWARDS RECEIVED

- 📄 Academic Excellence presenter (2015)
- 📄 Honor roll (2008 - 2010)

# MICHAEL PARKER

## ASPIRING FRONT-END DEV

## PERSONAL PROFILE

College graduate wanting to pivot careers utilizing my experiences and skills in the software development industry as a Junior front-end developer.

## PROJECTS

### Blondy's Baked Goods

#### Lead UX designer

- Designed in Figma for the wireframes and prototypes.
- High-fidelity mockups built in Adobe XD.
- The prototype showcases the functionality of the app.
- A mobile, desktop, and tablet E-Commerce web app designed for a local baker to allow her goods to be more accessible to the community.

### The Omni Logger

#### Lead front and back-end developer

- Built using Django, Bootstrap, JS Charts, and SQLite.
- Used Unittest to test code functionality.
- SQLite DB was built and designed by me.
- A mobile and desktop app designed to help users track everyday life activities. These activities include journal entries, workouts, and much more. The data is then used to build beautiful charts.

### My Portfolio

#### Lead front-end developer

- Built using React, Node.js, and Bootstrap 5.
- Case study wireframes, mockups, and prototypes built in Figma.
- The About page is unique as it has custom JS functionality built by me to engage the user.
- Test code functionality using Jest.
- No backend coding was needed as this web app was meant to only be static in nature.
- High-fidelity mockups built in Adobe XD.
- A mobile-only web app portfolio showcasing my projects, skill set, and who I am.

## CERTIFICATE

Foundations of User Experience (UX) Design  
by Google

# MICHAEL PARKER

JUNIOR FRONT END  
DEVELOPER

## EDUCATIONAL HISTORY

### Western Oregon University

Bachelors of Science | Majored in Exercise Science &
